Dear Hiring Manager,

I am writing to express my interest in software, cloud, or DevOps-focused roles within your organization. I am a Software and Cloud Developer with hands-on experience building full-stack applications, deploying cloud-native systems, and supporting production environments using modern engineering practices.

During my Software Developer Internship with the Ontario Public Service, I contributed to full-stack development, automated testing, and quality assurance for enterprise applications. I worked extensively with Java, Spring Boot, C#, ASP.NET Core, and RESTful APIs, while collaborating in Agile teams to deliver reliable, maintainable solutions.

In addition to my professional experience, I have led cloud deployments for academic and personal projects using AWS services such as ECS/Fargate, ECR, RDS, and Docker. These projects strengthened my understanding of cloud architecture, CI/CD principles, and scalable system design.

I am highly motivated, detail-oriented, and passionate about building software that is both reliable and impactful. I would welcome the opportunity to bring my technical skills, cloud experience, and collaborative mindset to your team.

Thank you for your time and consideration. I look forward to the opportunity to discuss how I can contribute to your organization.

Sincerely,
Farouk Oladega
